to a greener future

Green Depots to Reopen for Xpress Customers starting Week of May 11

Please be advised that some Green Depots across the province will resume operations starting the week of May 11, 2020. Dates for reopening and hours of operation may vary between Green Depots.

Upon reopening, Green Depot locations will move to an Xpress only model of service and implement several precautions to ensure physical distancing and safety of staff. Traditional counter service, where a customer waits for their order to be counted followed by their cash payment, is suspended until Newfoundland and Labrador enters COVID-19 Alert Level 3.

Xpress is an account-based system available at all Green Depots that allows customers to quickly drop off beverage containers and claim their refund later. Customers who do not have an Xpress account will need to register prior to visiting a Green Depot.

For more information, including how to register for Xpress and operational details for each Green Depot, visit greendepotnl.ca.
